Non-flammable stone wool slabs made of basaltic and gabbroic rocks

Product Description

THERMOWOOL FAS EFFECT 135 is non-flammable, hydrophobized heat- and sound-insulating slabs made of mineral wool based on the basalt group rocks.

Scope of application:

THERMOWOOL FAS EFFECT 135 slabs are intended for use in civil and industrial construction as thermal and sound insulation in systems of external wall insulation with a protective and decorative layer of fine plaster.

Storage:

Slabs should be stored packed and stacked on pallets divided by types and sizes. During the entire storage period, the material must be protected from atmospheric precipitation. The height of the stack of slabs should not exceed 3 m upon storage.

Packaging Details:

Polyethylene shrink wrap is used for packaging. The method of wrapping and fixing a packaging material must ensure the reliable and strong packaging of slabs, their protection during loading and unloading operations, transportation and storage.
